

A STUDENT

ACHIEVES SUCCESS

IMPACT STORY

Staff from the Boys and Girls Club of Fitchburg & Leominster met Adriana when she was in middle school. She wanted to become a nurse and was hoping to attend Monty Tech but struggled with her grades.

Adriana participated in Power Hour at the club every day, where staff helped her with challenges including time management. Soon, Adriana's grades improved and she was accepted to Monty Tech. She is currently in her third year—two years on the Dean's list—and plans to study nursing in college.

Adriana's academic success and growth were attributed to a program funded by the United Way of North Central Massachusetts
